

Basic Detail Report

Small globular box

Date

ca. 15th century

Primary Maker

Unidentified artist

Medium

Transparent glazed high-fired stoneware decorated in underglaze iron-black

Description

Covered-box type of vessel on a high, straight footrim with a band of three incised lines connecting foot and body. The dome lid has a knob finial surrounded by two raised concentric rings and a collar of palm fronds radiating from the center. The base is decorated with palm fronds and each leaf is separated by two vertical lines. The piece is covered with transparent bluish glaze that pools in areas.

Dimensions

3 1/4 inches × 4 inches (8.3 × 10.2 cm)
