

Basic Detail Report

Small globular jar with slightly faceted sides

Primary Maker

Unidentified artist

Medium

Stoneware with underglaze cobalt blue

Description

Stoneware small globular jar with straight, slightly faceted sides which taper sharply above the high foot ring. Having high, slightly sloping shoulders and a tubular neck and

small mouth. Decorated with band of petal forms around neck and with octagonal reserves enclosing plants, enclosed by fields of diamond forms, all painted in underglaze cobalt blue on finely crackled reddish grey glaze.

Dimensions

Height: 3 3/4 inches (9.5 cm)
