

Water Seeping Through Rocks

Date

2002

Primary Maker

Katsushiro Soho

Medium

Suzudake bamboo

Description

A double layered basket made from thin strips of susutake or smoked bamboo (taken from ceilings of old Japanese farmhouses.) The basket is hemp leaf plaited using single and double groups of bamboo. The outside is then overlaid with vertical insertions coming down from the wrapped rim. The handle is formed from bundled strips tied in the middle and then inserted and secured to the

sides of the rim. Accompanied by black lacquered flower container and signed tomobako or kiri wood storage box.

Dimensions

Height: 14 1/2 inches (36.8 cm); Diameter: 7 1/2 inches (19.1 cm)
