

Basic Detail Report

Shallow dish with three floral ornamental motifs

Primary Maker

Unidentified artist

Medium

Porcelaneous stoneware with underglaze cobalt

Description

Shallow dish with three floral ornamental motifs. Porcelaneous stoneware with underglaze brown of well-potted shape with shallow curved sides tapering to a short foot rim. Interior bottom unglazed base of white clay. Exterior walls undecorated covered with a pale blue-grey glaze stopping short of the foot rim. Interior bottom unglazed except for a small brushed on glaze in the center central medallion. The sides covered with a pale blue-green glaze covering the three evenly spaced chrysanthemum motifs around the walls. Four concentric incised rings overlap the three floral motifs.
